## Adjustable Line Post..

**T**HIS LINE POST, with Cast Iron Spread Base, is used with all our IRON PICKET FENCES. The cast iron foundation will outlast wrought iron in the ground, and the spread base prevents any lifting from frost.

The fence is easily lined up by means of the screw and slot. These posts are put in about  $7\frac{1}{2}$  to 8 feet apart. If preferred, we furnish a 1-inch Square Line Post for fences up to 40 inches high. It has no brace; each panel of fence has a centre support.

A HEAVIER spread base is used for the end and gate posts. All our Wrought Iron Picket Fences are Painted before they leave the factory.

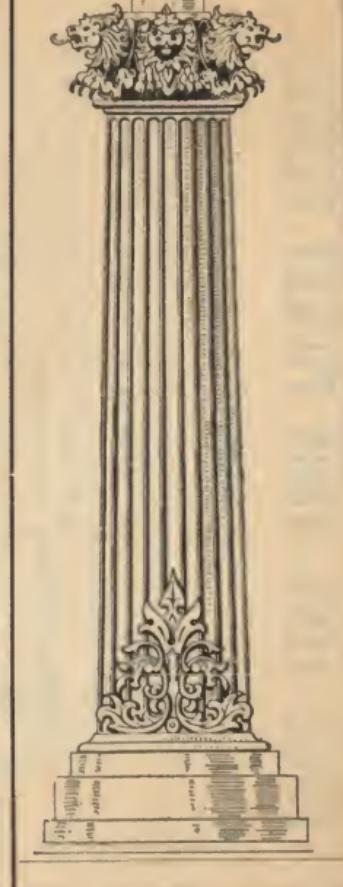

# ¶ ¶ Go the Grade ¶ ¶

**T**HE ENTERPRISE FOUNDRY AND FENCE CO., as successors of Ellis & Helfenberger, will continue the business under the same management. The high standard of excellence will be maintained and all work guaranteed as represented. You get no second-hand Pipe or other second-hand material from OUR Factory. The Pickets in all Wrought Iron Fences are caulked and the fittings provide for expansion and contraction. We use HEAVY, CAST IRON BASES for both large and small posts. Where heavy work is wanted we are glad to send special designs, that are not shown in the Catalogue. Ask for special net prices on large contracts. Our Double Line Posts and Anchor Bases make our Lawn Fences SUPERIOR to any. GET THE BEST. Your business will be appreciated.

## NEW CHAMPION LAWN FENCE. FOR LAWNS, PARKS AND CEMETERIES.

### DESCRIPTION.

The Posts are Tubular Steel, with heavy **Cast Iron Bases** that **drive** in the ground. The rails are Tubular Steel and Continuous, and firmly keyed to each post, forming a perfect brace. Corner, Gate and End Posts are fitted with ratchets for tightening each wire. The wire is four-strand, galvanized, braided and very elastic and strong. Gates are Wrought Iron.

**This makes a fine fence for country cemeteries.**

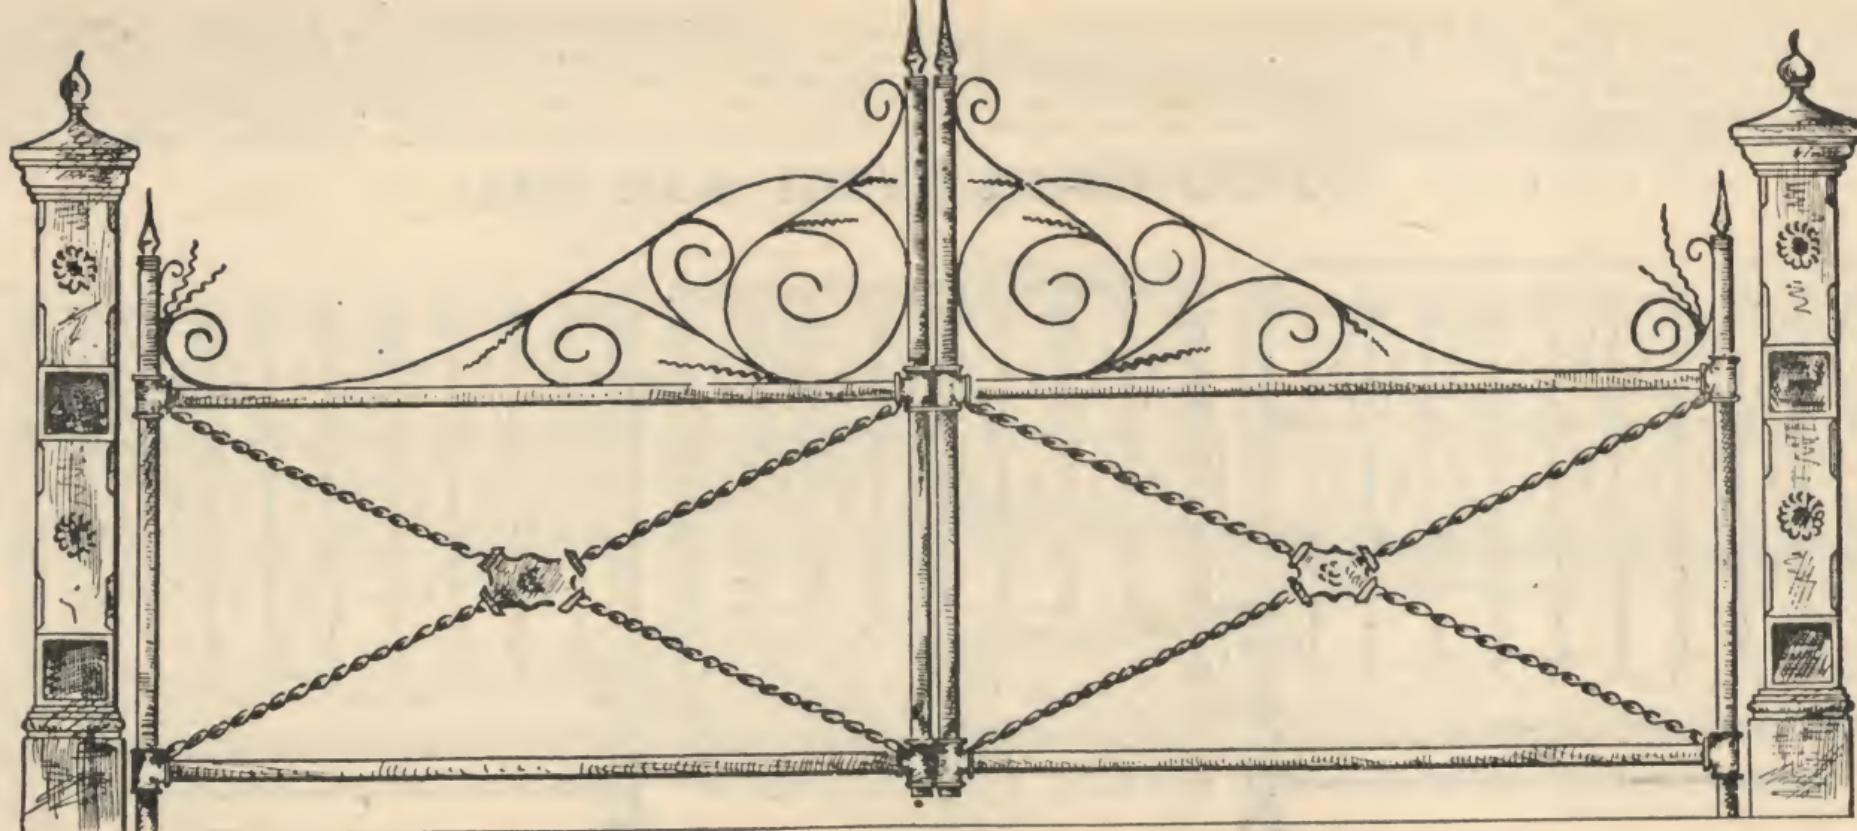

Entrance Gates and Arches to suit. See No. 3 Arch and Gates, page 20.

**Special prices on large Contracts.**

### PRICE LIST.

Design "NEW CHAMPION"	Height of Fence	No. of Wires	Size of Rail	Size of End and Gate Posts	Size of Line Posts	Price Per Foot
A	30 inch	6	1 inch	2 inch	1 $\frac{3}{8}$ inch	47 cents
B	36 "	7	1 "	2 "	1 $\frac{3}{8}$ "	50 "
C	42 "	8	1 $\frac{3}{8}$ "	2 $\frac{1}{2}$ "	1 $\frac{3}{4}$ "	62 "
D	48 "	8	1 $\frac{3}{8}$ "	2 $\frac{1}{2}$ "	1 $\frac{3}{4}$ "	65 "

Line Posts on Nos. A and B are 6 to 7 feet apart. Line Posts on Nos. C and D, are 7 to 8 feet apart. Extra for Walk Gate, \$5.00; Double Drive Gate, \$10.00; and are measured in as fence.

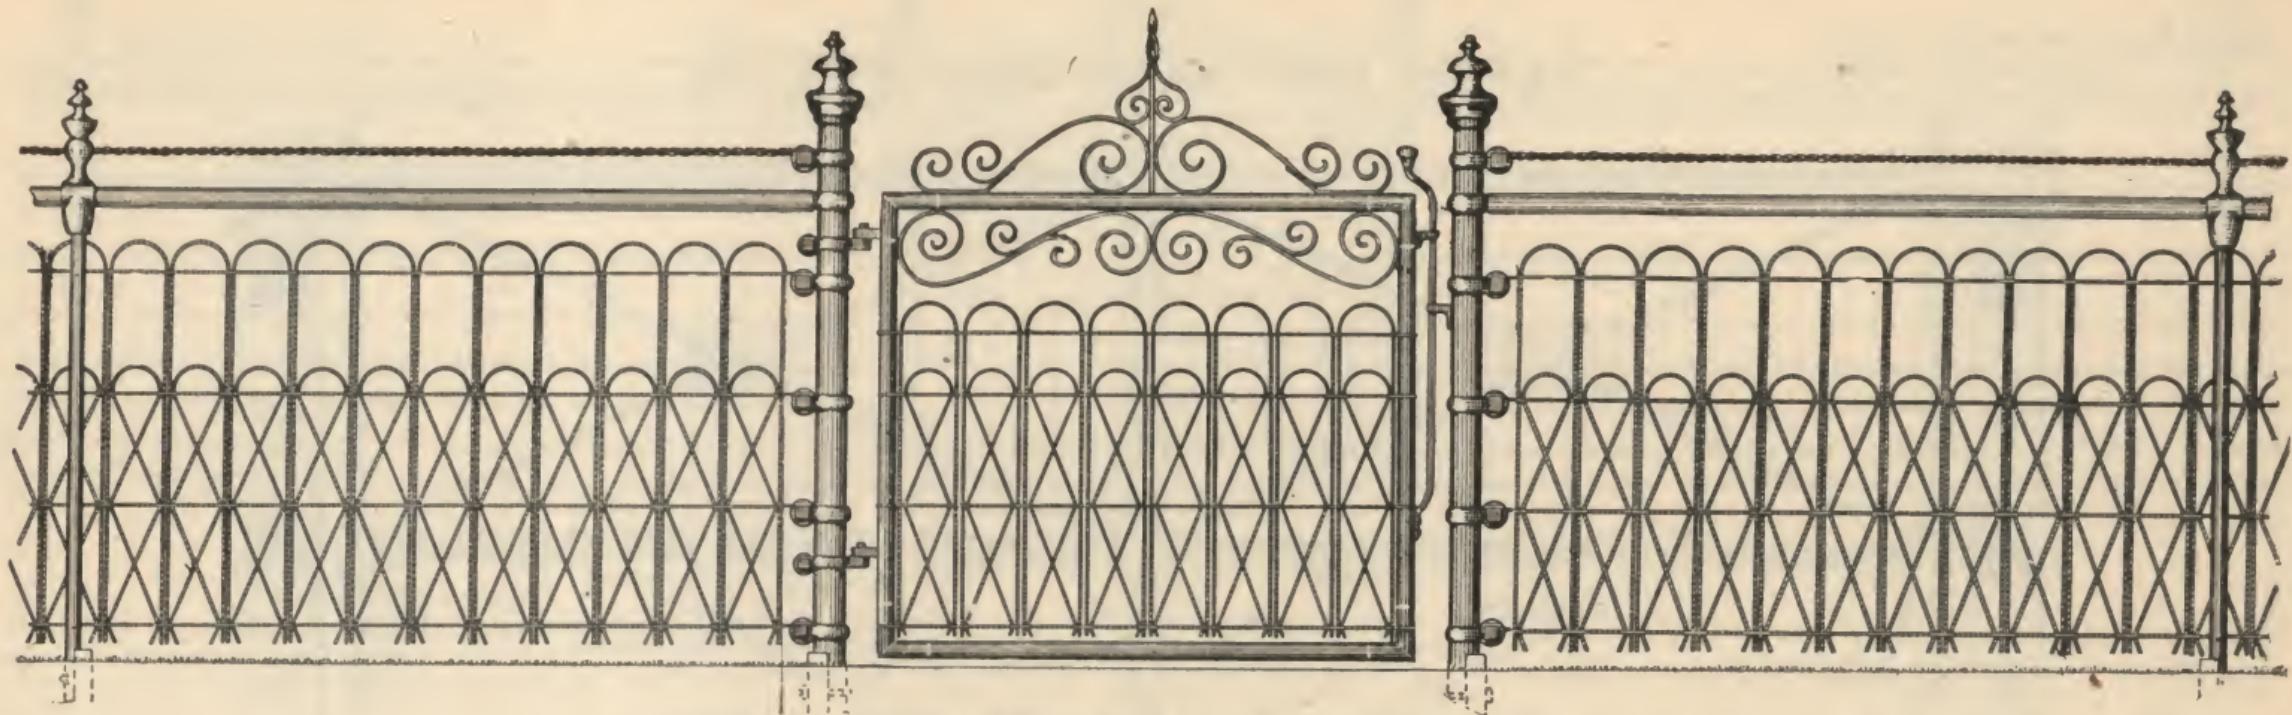

Used in connection with 2 and 3  
Rail Pipe Fences.

## No. 306 PIPE GATE AND POSTS.

—33—

Price, Gate, \$35.00,  
Price, Posts, per pair, \$18.00.

## THE NEW IDEAL LAWN FENCE. (Patented Dec. 17, 1895.)

**HANDSOME, STRONG, DURABLE.** The posts are tubular steel, bolted to a spread anchor base that prevents lifting by frost. The line posts are double and the  $1\frac{3}{8}$ -inch tubular steel rail is continuous, and passing through the top of the post and being keyed to it, the rail forms a perfect brace. The picket is about  $\frac{1}{4}$  inch thick, and made of heavy twisted galvanized steel wire. It passes through the double line post under the rail, and the fence appears the same on each side. The corner, gate and end posts have fittings to tighten each wire. A heavy galvanized four-strand braided wire is used above the rail. This fence is close enough to turn small animals, and any carpenter or mechanic can set it at an expense of three to five cents per foot. Good enough for a Fine Residence, and makes a splendid Cemetery Fence. Gates with arches to match.

# THE NEW IDEAL LAWN FENCE.

## PRICE LIST.

Design "NEW IDEAL"	Height of Fence	Height of Picket	Size of Rail	Size of End and Gate Posts	Price Per Foot
No. 30	30 inch	23 inch	1 $\frac{3}{8}$ inch	2 inch	\$0 77

**CEMETERY AND FARM FAVORITE.**

# CEMETERY AND FARM FAVORITE.

## DESCRIPTION.

The End Post and Line Post are the same as used with our Standard Farm and Cemetery Fence. It stops all large and small animals, and poultry. The meshes are the size of a four-inch diamond, divided in the middle. The great strength is in the twisted cables of No. 12 Galvanized Steel Wire, that run lengthwise of the fence and 4 inches apart. The Cross Wires are No. 14 Steel Wire, Galvanized, and so attached to the twisted cables as to add greatly to the strength and durability of the fence.

The combination makes the fence elastic, strong and secure, no matter what is turned against it.

## PRICE PER ROD. INCLUDING 1 $\frac{1}{4}$ -INCH LINE POST.

HEIGHT OF FENCE.	42 Inches	50 Inches	58 Inches
Posts 10 feet apart . . . . .	\$5 40	\$5 67	\$6 03

# Suggestions for Ordering or Writing for Prices for Fencing.

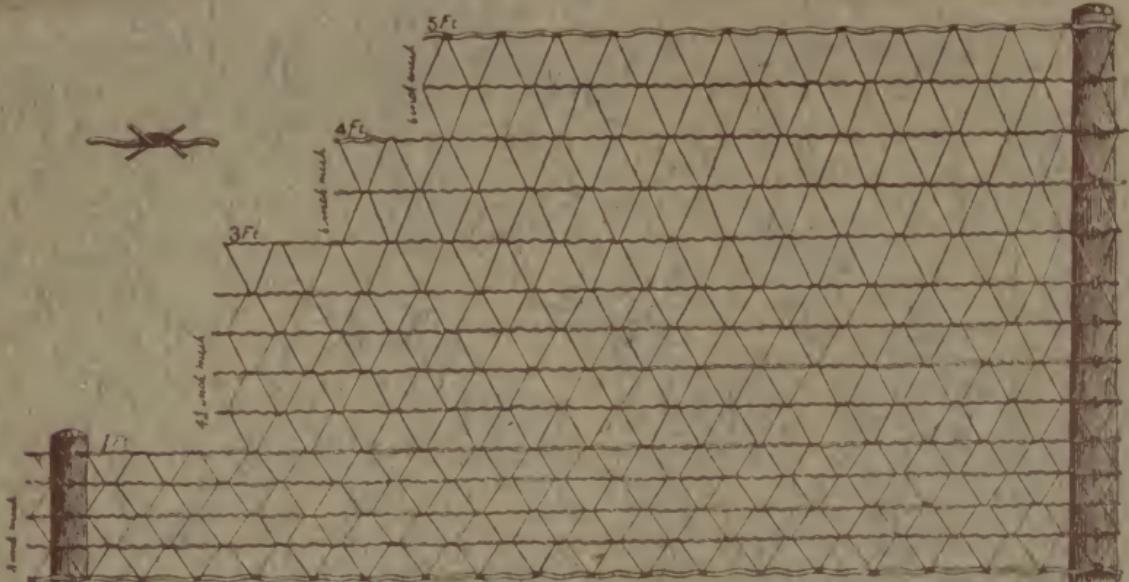

---

First draw a Diagram or Plan showing location of posts and gates. Mark on plan the length from end of fence to center of first gate, then distance to middle of next gate or end of fence, as case may be, and state entire length of fence over all.

Above makes clear locations of gates and how they swing, as well as entire length of fence. Be particular to state if ground is level or on grade, giving high and low points and difference in inches.

The Posts shown with Fence are generally best suited to that particular design, but other Posts may be substituted.  
See Page 63 for Form of Order.

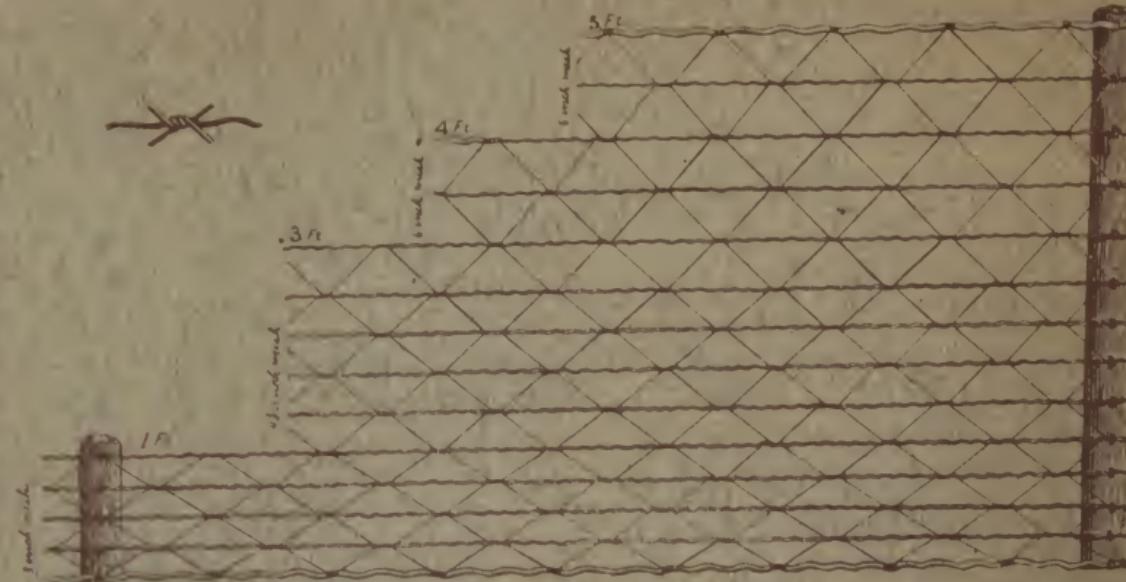

### ENTERPRISE POULTRY AND RABBIT FENCE.

MADE IN ROLLS OF 10 AND 20 RODS.

60 inches high	14 Bars	Price per Rod,	\$1.26
48 " "	12 Bars	" "	1.08
36 " "	10 Bars	" "	.90

THIS IS A FENCE—NOT A NETTING. No rail required. Is strong enough to turn all kinds of Stock. Top and bottom wires No. 12. Intermediate wires No. 15, and cross wires No. 16. All Steel and galvanized. For special lengths an extra charge of 5 per cent. will be made.

### ENTERPRISE FIELD AND HOG FENCING.

MADE IN ROLLS OF 10 AND 20 RODS.

66 inches high	14 Bars	Price per Rod,	\$1.55
48 " "	12 Bars	" "	1.17
36 " "	10 Bars	" "	.99
29 " "	8 Bars	" "	.93

HOG FENCE: Top and bottom wires are No. 9. Intermediate wires No. 12. Cross wires No. 16. All Steel and Galvanized. This is a very strong, durable fence and suited to any purpose. For special lengths an extra charge of 5 per cent. will be made.

# *Enterprise Foundry & Fence Co.*

Wm. Helfenberger, Pres't.  
Geo. R. Ellis, Sec'y & Treas.

No. 366 Senate Ave., South.

Call us up No. 958.

*Indianapolis, Ind.* March, 1901.

Dear Sir:-

We cannot see you in person and wanting to interest you in the sale of fencing, therefore send you this Catalogue. The sales are made from the Catalogue and in this way you can increase your business without any additional investment.

The variety is such that you can suit any buyer, both in quality and price, as we can give you either an expensive Wrought Iron Fence, or a first class combination Iron and Wire Lawn Fence, at a moderate price.

Our general advertising brings a large number of inquiries and if in reach of a local Agent that we know will follow them up, we like to refer them to him

We make the discount liberal, but you cannot expect to sell at list prices. On the average, any fence can be set for five (5) cents per foot, leaving you a large margin of profit, even if you give your customer twenty-five per cent. (25%) from the list. The discount is 50 per cent % and we pay the freight on all orders for fencing of \$25 and over.

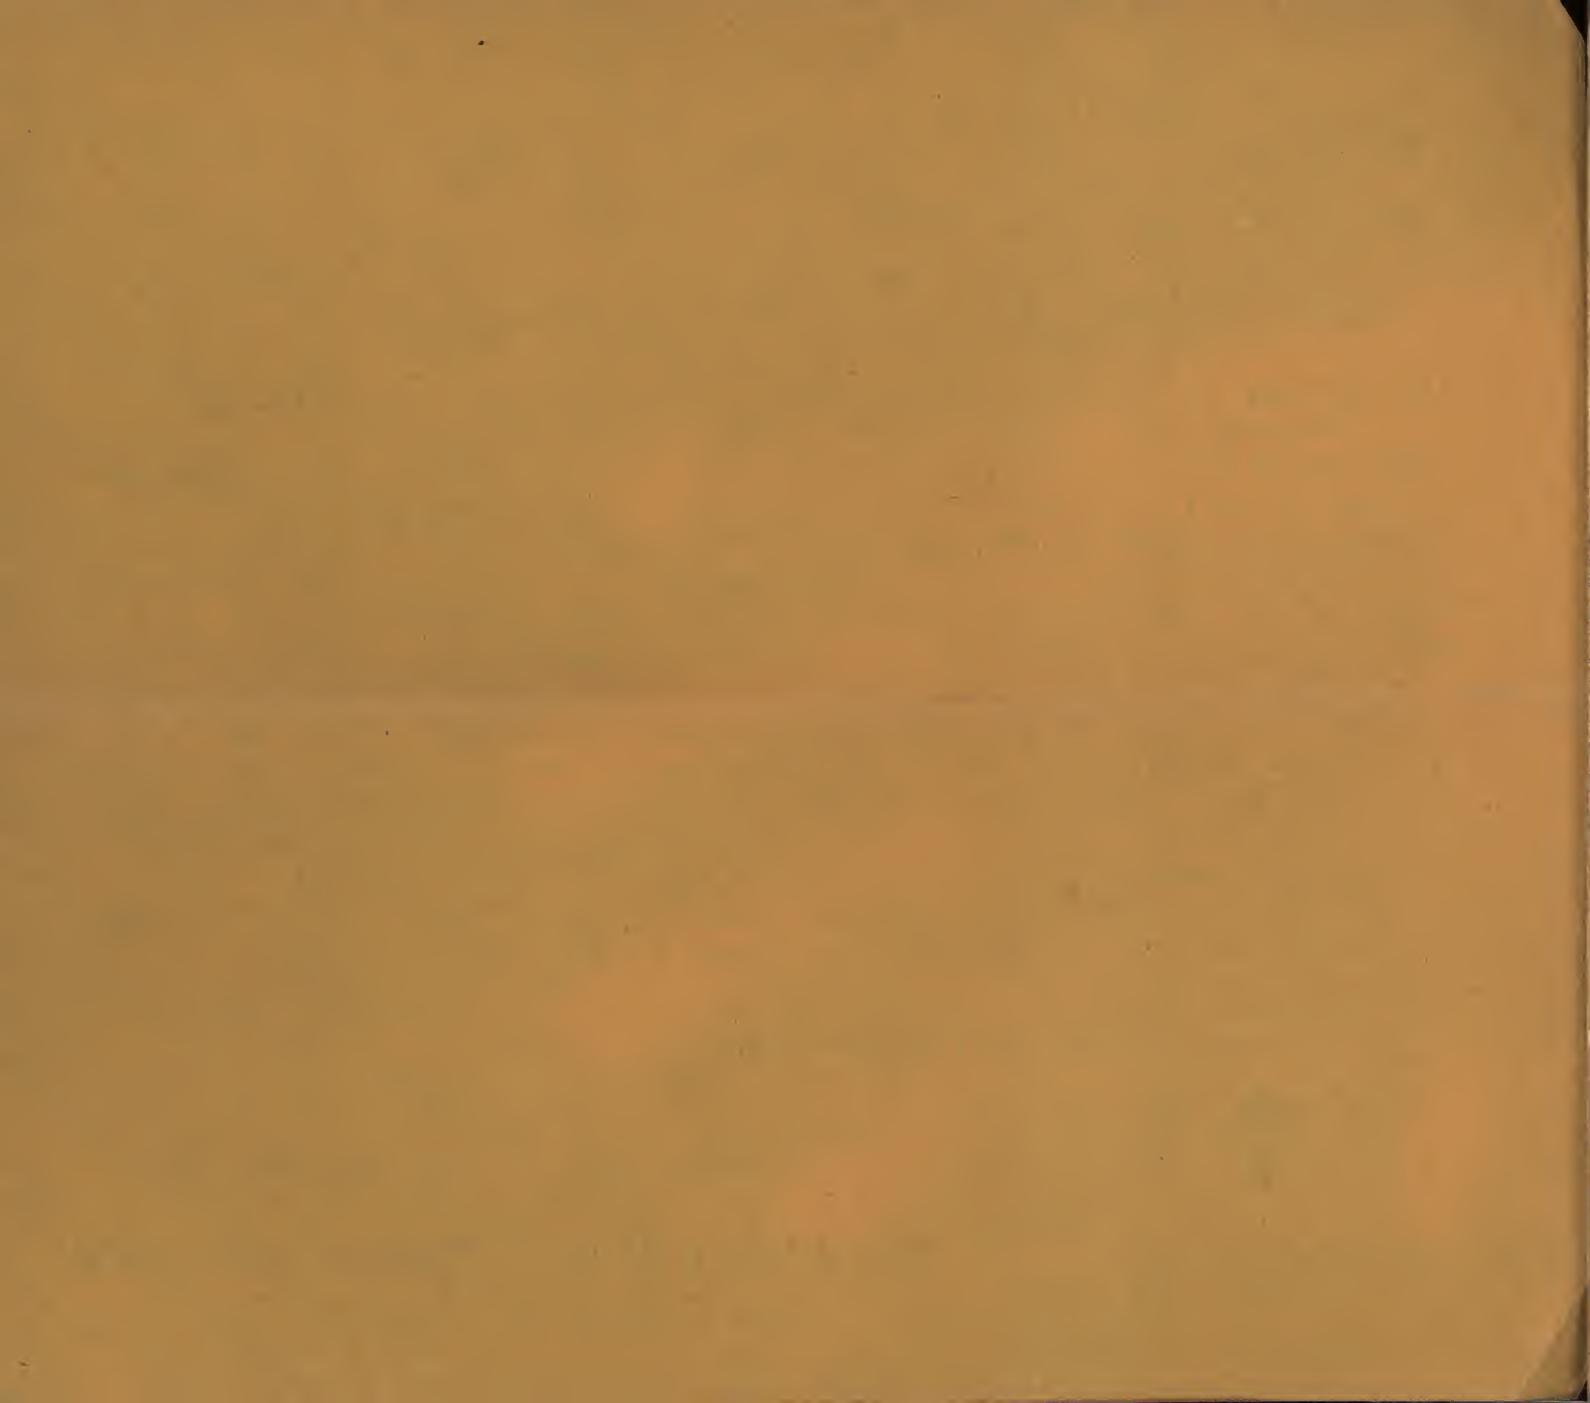

If you want the Agency, advise us at once. We enclose card for reply.

Respectfully yours,

THE ENTERPRISE FOUNDRY & FENCE CO.,

Successors to

Ellis & Helfenberger.
